

RADIO & AUDIO PRODUCTION MINOR

SCHOOL OF COMMUNICATION & JOURNALISM
AT EASTERN ILLINOIS UNIVERSITY

The Radio and Audio Production minor provides a comprehensive, practical overview of all production elements in performing, recording, editing, and circulating sound through media. It teaches students the theory and practice of audio production and voice work most useful for those interested in radio, announcing, television production, music recording (field or studio), live sound reinforcement, audio-visual installation, or for individuals looking to express themselves through sound.
