

EIU Residential Network (ResNet) User Agreement

1. I understand that I need a network interface device installed on my computer to be able to connect to the EIU Residential Network. I acknowledge that installing any hardware is my responsibility.
2. Any changes or purchases needed to connect to eiuwifi are my responsibility.
 - a. Not all wireless cards work on the EIU Residential Network, and I will be responsible for purchasing a device with hardware that meets the EIU specifications.
(<https://www.eiu.edu/panthertech/selfhelp.php> to inquire about compatibility)
3. I understand that I will need to purchase a CAT 6 cable to connect the Ethernet card in my computer to the network port in my room. I acknowledge that the network interface cable must be treated with care so that it performs properly.
4. I understand that I am responsible for any damage to my computer or computer software that may result from trying to connect to the network. I acknowledge that the University does not have technicians available to make repairs to student-owned hardware, and I agree to contract with a computer hardware vendor or commercial facility to complete any necessary diagnosis or repairs to my equipment so that it will be compatible with the network, and that:
 - a. If my attempt to connect to the network causes problems, the data port(s) in my room may be deactivated, and the port(s) will not be reactivated until the problem is corrected to the satisfaction of the University.
 - b. I am responsible for all data on my computer and for ensuring my data is backed up if needed.
5. I understand that my usage of the EIU Residential Network must comply with the University's computer Acceptable Use Policy available at: <https://www.eiu.edu/panthertech/policies.php>.

Eastern Illinois University is not responsible for damage to you, your computer, or your computer components when connecting to or using the EIU Residential Network, and you will use the network in compliance with the Acceptable Use Policy.
