

The Illinois Higher Education Center for Alcohol, Other Drug and Violence Prevention Announces:

“Developing and Assessing Learning Outcomes for Alcohol Education Programs”

Presented By: Eric S. Davidson, M.S., C.S.A.D.P.
Director, Illinois Higher Education Center
Student Affairs Assessment Coordinator, EIU
Associate Director, EIU Health Service

Student Affairs Practitioners and Substance Abuse Professionals are being called to demonstrate that program efforts effect learning, personal growth and behavior change. At the conclusion of this workshop, participants will be able to:

- Explain what assessment is and why assessment is important
- Discuss current forces leading to adoption of the student learning outcomes movement
- Explain the importance of linking learning outcomes with institutional, divisional, departmental outcomes and goals
- Differentiate between traditional performance metric/ process indicators with student learning outcomes
- Demonstrate ability to create a logic model focusing on departmental goals and student learning outcomes
- List components of a student learning outcomes assessment plan
- Write student learning outcomes statements
- Describe steps needed to carry out a student learning outcomes assessment plan

Date: Friday, October 8, 2010

Time: 9:00am-3:00pm

Place: Southwestern Illinois College, Belleville, IL
(directions will be sent to those who register).

Lunch **only** and training materials will be provided at no cost.
