

## New Faces at IHEC

Please join Illinois Higher Education Center in welcoming our newest staff members. Former graduate assistant at IHEC, Madison Palmer, is now the assistant director. Orlando Cooper is the newest graduate assistant. Both are dedicated to reaching the goal of reducing negative health and safety consequences related to alcohol, other drugs and violence for colleges throughout Illinois.

## Sign Up for a FREE Virtual Consultation with IHEC

**Update: Due to COVID-19, consultations will be virtual until further notice**

The purpose of an IHEC consultation visit is for campuses to enhance or strengthen their current programming, provide data to justify need for future programming, and to ensure compliance with state and federal regulations.

IHEC staff members are available to guide colleges and universities in assessment, planning, and evaluation of campus AODV prevention efforts through technical assistance and use of assessment instruments developed for this project. Through consultation visits IHEC expects to fuel universities to make changes for the better

After the consultation has been completed, IHEC staff members will provide the campus representative with a comprehensive report that will guide campuses toward progressive AODV prevention modifications. Consultation visits typically take a day, and can be coordinated with an array of faculty members. You can also visit

<https://www.eiu.edu/ihec/consultationvisits.php> for additional information.

# Upcoming Events

## Webinar/Trainings

Upcoming Webinars and Events coming soon

---

## Continuing Education Units (CEU's)

**IHEC offers free CEU's at all webinars and training's!**

For more information about what CEU's we will be offering please contact us.

## Update from CDC on Covid

As of October 20th, 2020 in the United States there has been 8,188,585 confirmed cases of Covid-19

- There is currently no approved vaccine to prevent Covid-19
- CDC is still recommending that you wear a mask in public and remain 6-feet apart
- Try to avoid traveling and large crowds
- Testing negative on a covid-19 test only means you didn't have it at that time
- If you're feeling ill please stay home from work, school, etc.

For more information go to [CDC.Gov/COVID-19](https://www.cdc.gov/COVID-19)
