2022 Core Survey

The Illinois Department of Human Services, the Illinois Higher Education Center (IHEC) for Alcohol, Other Drug and Violence Prevention, and the Core Institute together provide the Illinois Alcohol and Other Drug Statewide Core Survey.

The Purpose of the Core Survey is to Establish the current incidence and prevalence of alcohol and other drug use on Illinois 2 and 4-year college campuses.

The Core Survey will help discover

- Negative consequences associated with alcohol and drug use
- The relationship of alcohol and other drug use to campus climate issues
- experiences of physical and sexual violence; and perceptions of risk related to
- Students perception of others use
- Experience of secondhand effects of others use

COFFEE CHAT
PRESENTED BY:
ILLINOIS HIGHER
EDUCATION CENTER

IHEC will be providing a platform for professionals in prevention to network, socialize and more!

More information coming soon

Sign Up for a FREE Virtual Consultation with IHEC

Update: Due to COVID-19, consultations will be virtual until further notice

The purpose of an IHEC consultation visit is for campuses to enhance or strengthen their current programming, provide data to justify need for future programming, and to ensure compliance with state and federal regulations. IHEC staff members are available to guide colleges and universities in assessment, planning, and evaluation of campus AODV prevention efforts through technical assistance and use of assessment instruments developed for this project. Through consultation visits IHEC expects to fuel universities to make changes for the better

After the consultation has been completed, IHEC staff members will provide the campus representative with a comprehensive report that will guide campuses toward progressive AODV prevention modifications. Consultation visits typically take a day, and can be coordinated with an array of faculty members. You can also visit

<https://www.eiu.edu/ihec/consultationvisits.php> for additional information.

CDC Update: When You've been fully Vaccinated

What You Should continue to do

- You will still need to follow guidance at your workplace and local businesses.
- If you travel, you should still take steps to protect yourself and others.
- You should still watch out for symptoms of COVID-19, especially if you've been around someone who is sick. If you have symptoms of COVID-19, you should get tested and stay home and away from others. If your test is positive, isolate at home for 10 days.

For more about being fully vaccinated the CDC provides information [here](#)

Continuing Education Units (CEU's)

IHEC offers free CEU's at all webinars and trainings!

For more information about what CEU's we will be offering please contact us.
